Hey everyone! I'm currently gearing up for the HESI exam, focusing on subjects like Pharmacology, Medical-Surgical Nursing, and Maternity Nursing. I've been breaking down each topic into manageable sections, which has been really helpful. One question I keep seeing is, "Can you take the HESI exam online?" I've heard mixed opinions, so I'd love to get some clarity from anyone who knows. If you have tips on mastering Pediatrics or Mental Health, please share!
